

SHOCKWAVE KARTING

FALL SALE!

Radiators and Axle Bearings

Standard Radiators

The radiators manufactured specially for Shockwave Karting present a giant leap forward in the evolution of karting engine cooling systems. With a special cross-finned interior pattern, the Shockwave radiator provides significantly more surface area than a traditional radiator and thus, greatly improved cooling performance. The hose connection ports are specifically located to aid in the routing of water lines, especially for moto based packages, and the inclusion of a drain plug in the bottom of the radiator allows for easy removal of water for cold nights. Radiators are available in three different sizes to suit any application.

Small (8" X 15") - Reg ~~\$294~~ SALE \$255

Medium (10" X 16") - Reg ~~\$359~~ SALE \$290

Large (10" X 19") - Reg ~~\$379~~ SALE \$336

Axle Bearings

Our bearings are assembled per our specifications. They are non-contact shielded bearings with a light oil fill and are ultra-free spinning. Includes set screws.

30mm - Reg ~~\$17.00~~ SALE \$13.60

40mm - Reg ~~\$28.00~~ SALE \$23.80

50mm - Reg ~~\$33.00~~ SALE \$27.50

Prices valid through December 31, 2007.
